

Anti-Slavery & Human Trafficking Policy Statement

Policy Owner: Finance Department

Approved By: CEO

Effective Date: December 2025

Review Date: December 2026

This document represents the Formula E Group's¹ (hereinafter "**The Company**" or "**Formula E**" or "**FE**" or "**We**") Anti-Slavery and Human Trafficking Policy Statement for the Financial year ending 30th September 2025.

1. Introduction

- 1.1 Formula E is the world's first fully electric single-seater motorsports racing series. The Company provides operational and commercial management of the motorsport in connection with the ABB FIA Formula E World Championship and its events under the long-term agreement entered into with the Federation Internationale de l'Automobile ("FIA").
- 1.2 The Company understands modern slavery can take many forms including but not limited to human trafficking, forced labour, slavery and servitude ("**Modern Slavery**").
- 1.3 The Company recognises the importance of ensuring Modern Slavery finds no place within it or in its supply chain. Formula E is committed to make its approach to Modern Slavery transparent in line with the obligations set forth under the Modern Slavery Act 2015 ("**MSA**") and, expect its employees, suppliers and promoters to act according to standards Formula E has set in relation to this. The obligations set forth under the MSA are contemplated by Formula E as the minimum standards required for its employees, suppliers and promoters ("**Modern Slavery Standards**").
- 1.4 This Policy does not form part of any individual's employment contract with the Company, and Formula E, at its discretion, reserves the right to amend it if necessary.

2. Policy Statement

- 2.1 As a Company, Formula E condemns Modern Slavery and refuses to conduct business with any persons or companies involved in it or who condone such practices.
- 2.2 Formula E values equity and diversity and prides itself in having high ethical standards in the conduct administration of its business. Formula E fully supports the UK Government's objectives behind the MSA and this statement affirms Formula E's intention to act ethically in all business conducts and relations.
- 2.3 We expect everyone who works for Formula E, on its behalf, or is in partnership with Formula E in any capacity, to have zero tolerance towards Modern Slavery.
- 2.4 We undertake checks on all our employees prior to the beginning of their employment within Formula E. This includes checking that the employee has a valid work visa and is of an appropriate age to work.

¹ *Formula E Group includes all companies within the group structure, including:

Formula E Holdings Limited, Formula E Operations Limited, Formula E Brazil Ltda, Formula E Race Operations Limited, Formula E Publishing Limited, Formula E Operations Chile SpA, Formula E Enterprise Inc, Formula E Mexico Race Operations S. de R.L. de C.V, Formula E Race Operations Ltd. (Japan Branch), Formula E Spain Operations, S.L.

- 2.5 We are committed to train our employees in order to (i) acknowledge and understand the principles of Modern Slavery, including the Modern Slavery Standards and (ii) be able to identify and recognise the modern slavery practices within the day-by-day working routine. All Formula E employees are required to report any known or suspected breaches of this policy and/or Modern Slavery Standards to their line manager, the Chief People Officer, or via one of the communication lines established within FE's Whistleblowing Policy.
- 2.6 As part of this statement, Formula E will outline a Modern Slavery & Human Trafficking action plan to be in place for the year ahead in order to help continually improve Formula E Group's ethical employment and labour sourcing standards, and to ensure full compliance with the Modern Slavery Standards. Performance against this action plan will be noted and reviewed on an annual basis, any emerging risks have to be noted and tackled through dedicated action plan in order to minimise any Modern Slavery risks.
- 2.7 This policy takes into account that Formula E's suppliers and sub-suppliers are truly worldwide, with current and past events being hosted in Europe, Asia, Africa, North America and South America.

3. Our Supply Chain

- 3.1 The Company outsources a range of goods and services to suppliers across the world during the organisation of the Championship season racing events. Formula E ensures from the beginning of this outsourcing process that every party involved in its supply chain is aware of its Modern Slavery Standards and is committed to fully adhere with them. Upon appointment the following documents are issued to all new suppliers:
 - Modern Slavery Act Questionnaire, which seeks assurance that all companies with a turnover of more than £36million have implemented anti-modern slavery standards and controls;
 - Supplier Code of Conduct which includes the following statement: "Suppliers must not participate in any form of human slavery, human trafficking and forced labour. Suppliers must provide the same in respect of their own supply chain... Formula E adheres to the Modern Slavery Act 2015 and expects its suppliers to conform to the same standards."

On an annual basis, the Company conducts a "Supply Chain Risk Assessment" to clearly identify the areas of the business where there are the greatest risks of Modern Slavery. Our Season 2025/2026 ("Season 12") risk assessment, involving the Senior Internal Audit Manager, Chief Financial Officer, and the Procurement Director identified the following as areas of the business requiring monitoring, review and action proportionate to the level of risk assessed:

3.1.1 Global and Local TV and Electronic Event Infrastructure

Risk: Appointed Contractors and sub-contractors in the TV and Electronic Event Infrastructure industry subject their employees to slave labour and/or human trafficking.

There are several global partners Formula E works alongside with to deliver electronic data and TV content to the Formula E internal ecosystem and to the worldwide broadcasters and websites. The UK-based companies falling within this category and having a turnover of £36m-plus shall be considered to have a **high-level risk of Modern Slavery Act compliance** and are required to submit an “Supplier Questionnaire on Modern Slavery Act”.

According to the questionnaire responses received, Formula E will conduct a more in-depth review of the control mechanisms put in place by these suppliers to manage modern slavery risks and discuss the application of specific Key Performance Indicators in order to monitor and contain the resulting Modern Slavery Act compliance risks.

Many of the local broadcasters at the Formula E events have media rights agreements in place with Formula E to provide coverage to local audiences utilising their own staff to construct their TV infrastructure for the event. Such companies provide their own supply chain but Formula E still makes it a duty of agreement with local broadcasters to remind them its stance on Modern Slavery and this is referenced in all agreements with all media rights broadcasters.

The FE accreditation process dictates that all partners are reminded of the requirement to comply with Formula E's minimum labour welfare standards (see appendix C) and to flag any instances of non-compliance, and that labour inspections will take place at certain events during the season.

3.1.2 Event Construction Contractors, Agency Staff and Other Labour Suppliers

Risk: Directly appointed contractors and sub-contractors in the construction industry and other labour industries subject their employees to slave labour and/or human trafficking.

In the organisation of its racing events in city centres around the world, Formula E appoints several contractors to build the racetrack, paddocks, grandstands and carry out trackside events and entertainment. The Company recognises that such contractors may have a high-level risk of Modern Slavery, particularly in those countries bound by less stringent employment regulations than the UK, European Union and North America.

Under the Formula E procurement process, the Company requires a full disclosure of each contractor employment standards and source agencies through which the contractors source their workforce. If such event construction providers are contracted by a promoter or a local operator (as both defined later on in this document) of the Formula E events, the responsibilities and obligations to comply with Modern Slavery Act and Standards are included under the terms of their respective event operator and/or promoter agreements in place with Formula E.

Formula E directly, or by delegation of authority through promoters and/or local operators, requires all existing and new event suppliers to submit the Modern Slavery Questionnaire as part of the supplier onboarding process. In accordance with the questionnaire responses, Formula E may decide to carry out a more in-depth audit of

the contractors and their working agency employment standards. The company approach shall be decided following a Modern Slavery risk assessment carried out by the Company Internal Auditor. Audits will be conducted to measure against the standards of this policy and the Ethical Trading Initiative (ETI) Base Code.

Formula E has, as part of its supply chain risk assessments, identified the following five types of on-site labour as key areas of focus in any audit of event compliance with this Policy:

- Temporary Structure Construction;
- Scaffolding construction;
- Structure Fit-out;
- Cleaners;
- Hospitality staff

3.1.3 Local Promoters

Risk: Local promoters in high-risk territories appoint sub-contractors, across the above five types of on-site labour, which subject their employees to slave labour and/or human trafficking.

In the organisation of its events around the world, Formula E may appoint a local promoter (the “Promoter”) to organise and promote the Formula E event in the country where the event is held and to commercialise the commercial and media rights associated to the event. Under each local promoter agreement between Formula E and the designated Promoter, the Promoter has the obligation to fully comply with the Modern Slavery Act, Human Rights Act and FE’s Minimum Labour Welfare Standards (see Appendix C). Furthermore, the Promoter must ensure that all the suppliers contracted directly for the realisation of the Formula E event, fully comply with these Acts and Standards.

Before appointing a Promoter, Formula E carries out a careful due diligence of the financial and ethical standards of the Promoter.

Formula E is committed to build long-term relationships with its Promoters and working together with them to ensure continual improvement in further reducing the risk of slavery and human trafficking as part of its obligations under the MSA.

Notwithstanding the above, Formula E recognises that in instances where a promoter is directly responsible for the procurement of the local supply chain for events in locations where modern slavery prevalence is higher, the business will ensure it has oversight of these procurement exercises. Formula E will also seek to provide assurance over the delivery of these services in accordance with the minimum labour welfare standards as part of labour inspection and accreditation audits.

3.1.4 Local Operators

Risk: Local operators fail to prevent modern slavery in the supply chains of the contractors they appoint.

Formula E may also assign to local companies (the “**Operator**”) the procurement and supervision of certain services needed for the realization of the Formula E event. Within this process, Formula E requires the disclosure of the Operator’s source agencies and their employment standards as a standard information requested under the Operator’s agreements.

Under each event operator agreement entered into by Formula E, the Operator has to fully comply with the Modern Slavery Act, Human Rights Act and FE’s Minimum Labour Welfare Standards (See Appendix C) and must confirm that all the suppliers contracted directly by the Operator fully comply with these Acts and Standards. Formula E reserves its right to audit the local Operators in respect of their compliance with the Modern Slavery Standards.

We also undertake careful due diligence on the financial and ethical performance of the Operators before a final decision on their appointment is taken.

Within its local operator agreements Formula E also provides the right to audit such Operators in respect of their compliance with these Acts and Standards.

3.1.5 Key Partners with Event Activations

Risk: Key partners deliver on-site activations using construction sub-contractors whose supply chain is vulnerable to modern slavery.

As part of our standard onboarding process for new suppliers, we require all key partners/sponsors of Formula E and its events to complete the MSA questionnaire.

Where these partners develop their own on-site activations at our events, we will seek assurances that they are looking to implement the same level of controls as FE to ensure that their supply chain is free from Modern Slavery.

While such companies provide their own supply chain FE still makes it a duty of agreement with sponsors to remind them of FE’s stance on Modern Slavery and this is referenced in all agreements with them.

Furthermore, FE has updated its supplier agreement general terms & conditions to emphasise the requirement for suppliers to notify the company of any sub-contracted companies and their responsibility to comply with the same MSA requirements as direct suppliers.

The Formula E accreditation process dictates that all partners are reminded of the requirement to comply with FE’s minimum labour welfare standards (See Appendix C) and to flag any instances of non-compliance, and that labour inspections will take place at certain events during the season.

The Event Experience onboarding process for all partners delivering activations throughout the season requires them to confirm the supply chain being used and ensures their sub-suppliers are notified of the same minimum labour welfare standards they are subject to, and the fact that they are subject to a labour inspection audit at any point during the year.

3.1.6 Risk Assessment Outcomes

In accordance with the 5 identified risk areas above, Formula E has undertaken risk assessments to determine the overall risk exposure specific to the working environment present at each of its Championship events. This is achieved by multiplying the Slavery Vulnerability score from the [Walk Free 2023 Global Slavery Index](#), with the likelihood of slavery being present in the supply chains specific to the control framework in each location.

Priority is given to auditing and improving controls for each Championship event where a "High" or "Very High" risk exposure has been identified.

3.2 Formula E Staff

Employment of permanent and temporary Formula E staff members is conducted either directly or through respected UK agencies and is considered minimal risk. The Chief People Officer is responsible for ensuring all UK employment legislation is complied with and all of our employees are paid above UK minimum wage. All early careers programmes are compliant with UK employment legislation.

If any party which makes part of Formula E's supply chain knows or has reason to suspect that Modern Slavery exists or will exist in the future, or that this Policy is being or will be breached, they are expected to report this as per the communication lines set out in the Whistleblowing Policy.

4. Training and Communication

- 4.1 All new Formula E employees are required to complete a training session on the Modern Slavery Act (MSA) 2015 and every employee and board member is required to annually complete an MSA compliance statement and refresher training on the MSA.
- 4.2 This Policy Statement will be made available to all staff via the internal policy depository, with the statement referenced as part of this annual training and is made accessible to any external stakeholders via the Formula E website. This is complimented by the Human & Child Rights Policy.

5. Responsibility for this Policy

- 5.1 The Company's leadership team approved this policy statement and shall take overall responsibility for it.
- 5.2 This policy statement shall be reviewed by the Internal Auditor on an annual basis, in co-ordination with Chief Financial Officer, Chief Business Affairs Officer, Legal, Procurement and People department, to ensure it is fully effective in countering Modern Slavery and also dealing with any queries relating to it.
- 5.3 All line managers are responsible for making sure that employees reporting to them fully understand and comply with this Policy. This includes being responsible for suggesting improvements and amendments to the policy where needed.

6. Breaches of this Policy

6.1 Formula E has a Whistleblowing Policy to allow its staff to raise any concerns of suspected wrongdoing, including breaches of this policy, to any of the following personnel:

Chief Legal Officer; Chief Financial Officer; VP, Sustainability; Liberty Global VP, Audit Risk & Compliance; FE's External Auditors.

6.2 Any employee who knowingly, directly or indirectly, employs staff who are subject to non-ethical working conditions, will face disciplinary action at the discretion of the Company. This could include dismissal for misconduct.

6.2 Where suspicions of non-ethical treatment or modern slavery are identified, the wellbeing of identified victims should be of utmost priority and the concern be reported to the local authorities. Where there is threat to life, the emergency services should be contacted immediately.

6.3 Once the safety of victims is assured, FE shall work with authorities to ensure that additional short-term control measures are implemented to mitigate the risk of similar cases being identified with other third parties.

6.4 Where concerns are relating only to administrative compliance and are not supported by substantive evidence of labour welfare concerns, FE may need to investigate further as part of post-event supplier performance evaluations, and terminate a contract based on under-performance relating to compliance requirements. FE will additionally seek to improve compliance controls in all areas year-on-year.

7. Action Plan

7.1 To demonstrate ongoing improvement in managing and reducing Modern Slavery risks, Formula E has set an action plan for Season 12 which is outlined in Appendix B.

7.2 Performance against this action plan will be reviewed on an annual basis with assurances given to the Compliance Officers to demonstrate how effective the business has been in mitigating the identified risks.

7.3 New actions will be set following this annual review in response to emerging risks.

Accreditation department/ H&S/ Fan Experience/ Senior Internal Audit Manager	1/12/25

	<p>An annual post-event labour report to be generated for all high-risk events, highlighting:</p> <ul style="list-style-type: none"> ▪ No. of workers operating on site; ▪ Breakdown of workers by supplier/ nationality; ▪ No. of workers attending site H&S inductions; ▪ Compliance demonstrated on-site with minimum labour welfare standards; ▪ Labour documentation provided by each supplier in accordance with labour laws; ▪ H&S documentation required by each supplier in accordance with H&S laws. ▪ Other findings and trends. 	Procurement Director/ Senior Internal Audit Manager	31/8/26
	<p>The Procurement team will implement a formal post-event supplier evaluation process which shall include a section relating to compliance issues.</p>	Procurement Director	11/1/26
	<p>The key labour legislation identified in the relevant Central and Event Legal Registers will be extrapolated and referenced in the standard local contract agreements for all suppliers. Key areas will include.</p> <ul style="list-style-type: none"> ▪ Labour Work permits; ▪ National Insurance/ Social Security; ▪ Employer/ Employee contractual agreements. 	Legal Department	31/12/25

Appendix C: FE Minimum Labour Welfare Standards

All suppliers must ensure that all workers should:

- Be of minimum working age relevant to the legislation of the country they are working in.
- Be paid at least minimum wage, where applicable, in accordance with local legislation.
- Be supported by the appropriate labour documentation, including work permits, which demonstrate they have the right to work in the country.
- Where staying on site overnight, be assigned a suitable area of shelter for the duration of their stay and should not settle anywhere outside of these designated areas, unless approved to do so by Formula E.
- Have access to toilet and washing facilities within a short walk of where they are stationed;
- Have easy access to drinking water at regular intervals;
- Be provided with appropriate occupational safety and health protection to do their job;
- Be provided with a 20-minute rest break if they're expected to work more than 6 hours during the day.
- Be provided with access to one meal during the day if working for 8 hours or more.
- Be provided with 8 hours' rest between finishing and starting work.
- Be provided with adequate opportunity to pray/ worship as obliged by their religion.
